

Building capacity for  
**evidence-informed**  
**polycymaking** in governance  
and public administration in a  
post-pandemic Europe

Athina Manta, DG REFORM  
Lorenzo Melchor, JRC  
Kristian Krieger, JRC  
Stéphane Jacobzone, OECD  
Claire Salama, OECD

#Science4Policy

# What is it?

- One of the largest multi-country public administration reform project by Technical Support Instrument
- A 2-year project implemented by the JRC and the OECD
- Seven Member States (EL, CZ, NL, LV, LT, EE, BE)
- Centres of Government, Budget ministries and Fiscal councils, Strategic decision making centres, science academic education and innovation systems organisations

# Project governance framework

Project advisory group

National coordinating groups

Netherlands Scientific Council for Government Policy (WRR)  
 Chief Science Officers' Interdepartmental network  
 Ministry of Justice  
 Ministry of Education, Culture and Research  
 Ministry of Finance

# Objectives

**Better institutional integration of the use of evidence, science, and evaluation in policymaking**

**Improved capacity and awareness for evidence-informed policymaking in governance and public administration in a post-pandemic Europe**

# Project overview

## Outcome A. Improved capacity for EIPM

Diagnostic reports

Needs assessment

Country roadmaps

Capacity-building  
workshops

Policy recommendations for  
reform of policy making and  
science systems

Better analytical and  
strategic competences

## Outcome B. Increased awareness, recognition, and understanding

Thematic  
symposia

International mutual  
learning and exchange

Joint declaration on science for policy by the seven participating Member States

# Country –specific support

- **Diagnostics, needs assessment, and country roadmap** reports
- **Analysis of beneficiary organisations** in the wider public administration and governance ecosystem
- Linking with existing **political priorities and ongoing reforms**
- **Methodology:** Desk-research, surveys, interviews, focus groups, participatory workshops, etc.
- Supported by JRC staff/groups of national experts (JRC) and OECD staff/Peer Review methodology (OECD)
- A common analytical framework developed by JRC and OECD and adapted to local circumstances

# International capacity-building workshops

## Scientists

- **Aim:** enabling trainees to deliver similar exercises nationally to help scientists maximise their policy impact
- 3 online/in-person workshops
- 48 participants in total (pairs of scientists-facilitators)
- 3 pairs per country (6 people)
- Training of trainers format
- Around Q2-Q4 2023
- Delivered by the JRC

## Policymakers

- **Aim:** building capacity in policymakers for EIPM and ensuring follow-up trainings
- Number of trainees to be decided
- 2 online/in-person workshops  
Using JRC's competence framework and OECD work on Building Capacity for EIPM and peer learning
- Around Q3 2023 – Q2 2024
- JRC and OECD

## Knowledge brokers

- **Aim:** address challenges in science for policy and in setting up knowledge mobilisation units
- 1 online/in-person workshop
- Number of trainees to be decided
- With the input of experts and practitioners from other organisations
- Around Q1-Q3 2024
- JRC and OECD

#Science4Policy

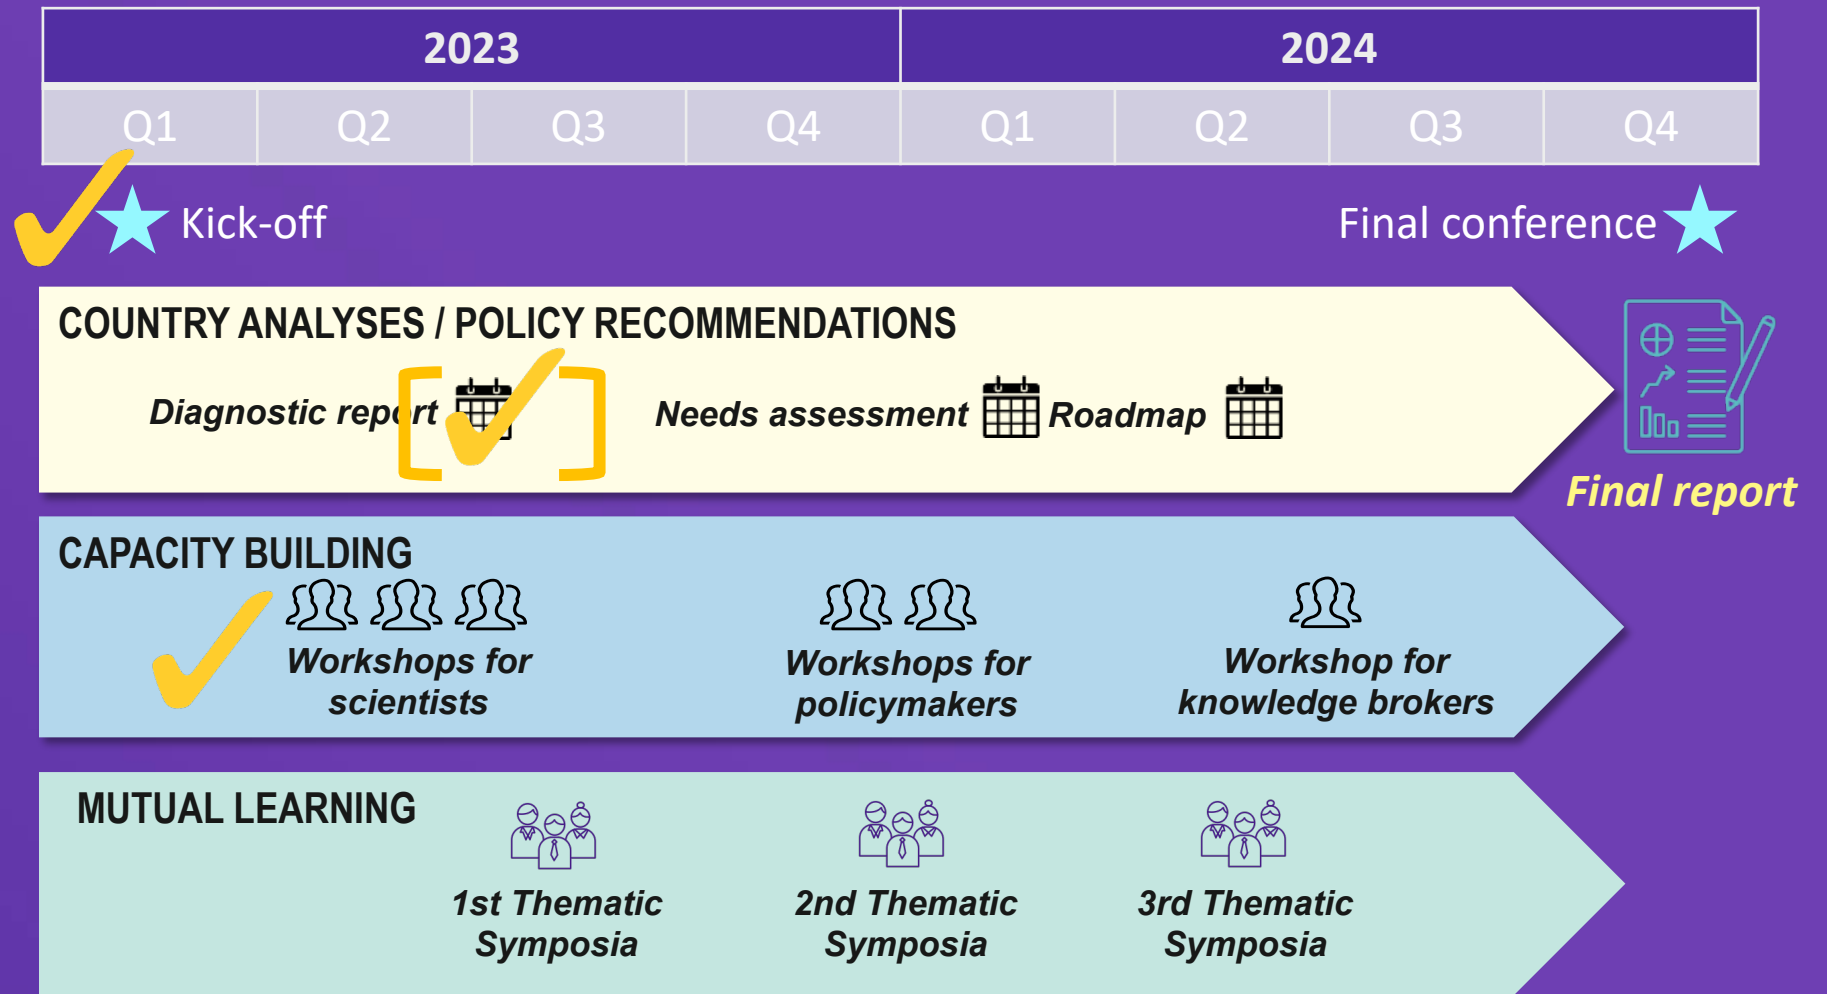

# Mutual learning exercises via thematic symposia

- Opportunity for networking and international exchange of practices
- A total of 3 international thematic symposia (online or in-person)

<b><u>Strategic foresight and anticipatory governance</u></b>	<b><u>Behavioural insights and its organisation in public administrations</u></b>
Public governance, deliberative democracy, values and identities	<b><u>AI and data analysis in public governance</u></b>
<b><u>Policy evaluation in public administration</u></b>	Other topics: implications of war in Ukraine, adapting to challenging times, etc.
