

Event Speaker Biography

Federico Muñiz

Director for Statistics of the SEPE (National Employment Service, Spain), since 2008.

He is responsible for the Observatory of Occupations, which has the function of identifying occupations with better employment prospects in the labor market of Spain, as well as the training needs and skills mismatches in these occupations. The Observatory is a 60 people network, working in all provinces and Autonomous Regions, together with the INCUAL (the Institute of Qualifications).

Federico has been a member of the EMCO Indicators Group (2009-2015) and attends the Commission LMP Experts Group meetings on behalf of the Labour Ministry of Spain. He is also responsible for the SISPE, the shared Information System for all the Employment Services in Spain.

He is graduated in Physics and Secondary School teacher.
