PUBLIC ADMINISTRATION AND GOVERNANCE

Country Overview

STRATEGIC FRAMEWORK

The public administration and governance priorities are specified in the 'Client-oriented Public Administration 2030' strategy. This framework builds on five aims: Quality services accessible to the client, efficient system of administration, efficient public institutions, competent human resources, and informed and engaged citizens. The new strategy focuses on engaging the public, uses Big Data to improve service availability, and highlights inspection mechanisms in the management of public funds.
